

Chapter 14: Rupees and Paise

NCERT · Class 3 · Maths

Questions

Question 1

Find the distance:

- a) From New Mal to Guwahati _____.
- b) Between New Mal and Goalpara _____.
- c) From Alipurduar to Guwahati _____.
- d) Between New Mal and Alipurduar _____.
- e) From Goalpara to Guwahati _____.

Solution

- a) From New Mal to Guwahati = $495 \text{ km} - 57 \text{ km} = 438 \text{ km}$.
 - b) Between New Mal and Goalpara = $366 \text{ km} - 57 \text{ km} = 309 \text{ km}$.
 - c) From Alipurduar to Guwahati = $495 \text{ km} - 175 \text{ km} = 320 \text{ km}$.
 - d) Between New Mal and Alipurduar = $175 \text{ km} - 57 \text{ km} = 118 \text{ km}$.
 - e) From Goalpara to Guwahati $495 \text{ km} - 366 \text{ km} = 129 \text{ km}$

Question 2

Find the cost of tickets:

- a) Bhupen is going from New Jalpaiguri to Alipurduar. What is the cost of his ticket?
- b) Indira has to go from New Jalpaiguri to Goalpara. How much does she pay for the ticket?
- c) Debu, Shoma and Gobind are going from New Jalpaiguri to New Mal. What amount will they pay for three tickets? They give a Rs. 50 note for the tickets. How much money will they get back?

Solution

a) Cost of ticket = Rs. 28

b) Amount she pays for the ticket = Rs. 49.50

c) Distance between New Jalpaiguri to New Mal = 57 km

Amount they pay for tickets = $3 \times \text{Rs. } 12.50 = \text{Rs. } 37.50$

The amount of money they get back = $\text{Rs. } 50 - \text{Rs. } 37.50 = \text{Rs. } 12.50$.
